HAZE COLLECTION

Taking inspiration from the “multi-faceted design object”，“designed to reflect the surrounding cityscape”，called “Crystal City Mind”，HAZE presents their 2020 collection, REFLECTION.

Design details strongly focus on “reflecting”，from the mirrored lenses to the polished metal inlay in the temples. Much like “Crystal City Mind”，REFLECTION forgoes straight lines for abrupt angles, seen in subtle details.

The collection is the output of absorbing one’s environment. The neccessity of adaptating to grow.
